Research
Course

Wednesday | April 16, 2014

Non-coding RNAs in cardiovascular disease

Prof. Dr. Stefanie Dimmeler, Universität Frankfurt am Main

Wednesday | July 9, 2014

3D crystal structures of complexes of RNA polymerase

Dr. Dirk Kostrewa, Gene Center, LMU München

Wednesday | May 14, 2014

Profiling of non-coding RNA classes

Prof. Dr. Gunter Meister, Biochemistry I, Universität Regensburg

Wednesday | July 16, 2014

Analysis of molecular interactions and epigenetic modifications in chromatin research

Prof. Dr. Gernot Längst, Biochemistry III, Universität Regensburg

Wednesday | May 28, 2014

RNAseq: methods and evaluation software

Dr. Thomas Stempf, Kompetenzzentrum für Fluoreszente Bioanalytik, Regensburg

Wednesday | June 11, 2014

Mass spectrometry in proteomics

Prof. Dr. Rainer Deutzmann, Biochemistry I, Universität Regensburg

Wednesday | June 25, 2014

Subcellular visualization of RNP dynamics

Dr. Ulrich Hammes, Cell Biology and Plant Biochemistry, Universität Regensburg
